

Dashboard::addUserDashboard

Dashboard::eraseUserDashboard

DataBase::userList

```
graph LR; A[Dashboard::addUserDashboard] --> C[DataBase::userList]; B[Dashboard::eraseUserDashboard] --> C;
```

The diagram illustrates a dependency or data flow. On the left, two rectangular boxes represent methods from the Dashboard class: 'Dashboard::addUserDashboard' (top) and 'Dashboard::eraseUserDashboard' (bottom). On the right, a shaded rectangular box represents a method from the DataBase class: 'DataBase::userList'. Two blue arrows originate from the right side of the Dashboard methods and point towards the left side of the DataBase method, indicating that both Dashboard methods interact with or depend on the DataBase::userList method.
